NotePage, Inc. White Paper

Company Name: Brentwood Fire District

Web Address: Brentwood, NY

Industry: Public Safety

Business / Organization Description:

Brentwood Fire District specializes in Volunteer Fire Protection and Emergency services covering 22.3 square miles of mixed residential and industrial areas.

How is PageGate Used/Customer Quote:

Brentwood Fire District uses PageGate with the GUI client as notification of vehicles in or out of service (to the chiefs, mechanics and superintendent). In addition it is used to notify of computer problems to the Network Administrator, and various other notifications. PageGate with the GUI is run on a 100mb Ethernet network covering 5 buildings over Frame Relay.

"It makes my life easier to have the paging database on the server for maintenance purposes. Before we got your software, I had to maintain the paging database on fifteen different computers, which is a lot when you have fifty something pagers that are constantly changing. It is a great timesaver from the administration side of things. We also use various carriers which all work seamlessly with your software."

Thomas Fink

Brentwood Fire District
