NotePage, Inc. White Paper

Company Name: KTVT

Web Address: www.ktvt.com

Industry: Media

Business / Organization Description:

KTVT is CBS television, Channel 11 in Fort Worth and Dallas, Texas.

How is PageGate Used/Customer Quote:

"KTVT uses PageGate to send text messages over the network from multiple workstations. KTVT uses PageGate to notify reporters and photographers in the field about information and assignments accurately and rapidly. Prior to NotePage, KTVT used a DOS program called SnapPage. While it was very reliable, it did not provide the ability to page over the network and from multiple workstations. PageGate has enabled KTVT producers and assignment editors to do that from their desktops."
