**Company Name:** Utah State University

**Web Address:** [www.usu.edu](http://www.usu.edu)

**Industry:** Education

### **Business / Organization Description:**

Utah State University is an Educational Institution.

### **How is PageGate Used/Customer Quote:**

"Utah University uses PageGate in a number of different ways. Campus police at Utah University uses the web interface to notify the different departments about specific alerts or conditions. Sometimes these are minor issues regarding elevator problems but they can be life safety issues and fire alerts as well. This has been found to be an excellent way to communicate with facilities management. In addition messages regarding computer related issues are sent to the MIS department to alert them to system issues. The campus police integrates with groupwise for comprehensive e-mail forwarding the administration enjoys the flexibility. I have been very impressed at the reliability of PageGate"
